EXPERIENCE

02

Mar 2026 – Present

ThinkSync

Product & UX/UI Designer

Lead end-to-end UX/UI initiatives and full system redesigns from scratch for major enterprise clients. Work closely with cross-functional teams to translate complex business specs into seamless digital products, building scalable design systems, tokens, and interaction patterns in Figma.

Jun 2024 – Aug 2024

RODUD

UX/UI Design Intern

Led the redesign of fleet management web apps and dashboards. Conducted field research and user behavior analysis to build wireframes and interactive prototypes that enhanced system usability and task completion efficiency.

EDUCATION

03

2020-2025

GPA: 4.2/5

IAU

Bachelor's Degree in Computer Science

SKILLS

04

UI Design	User Research
Product Strategy	Design Systems
AI Design	Rapid Prototyping

PROJECTS

05

Jun 2026 – Jul 2026

Draia

Product & UX/UI Designer

Designed a comprehensive HR management system, creating intuitive dashboards and workflows to track employee performance, manage internal requests, and streamline organizational HR processes.

Apr 2026 – Jun 2026

University Career Fair

Product & UX/UI Designer

Designed a smart university recruitment platform that seamlessly connects students with hiring companies, bridging online candidate discovery with real-time interactions during on-site career fair events.

Oct 2025

Rehab Roshn

UX Analyst & UI Designer

1st Place Winner — Co-designed a smart community platform in a 7-day sprint, leading research, user stories, information architecture, onboarding flows, and gamified profile designs for Flutter development.
